

Understanding Ohio's Regional Economies

Larry Less, Workforce Research
Bureau of Labor Market Information
ODJFS/Office of Workforce Development

Workforce Information Driving Regional Economies
June 19, 2007

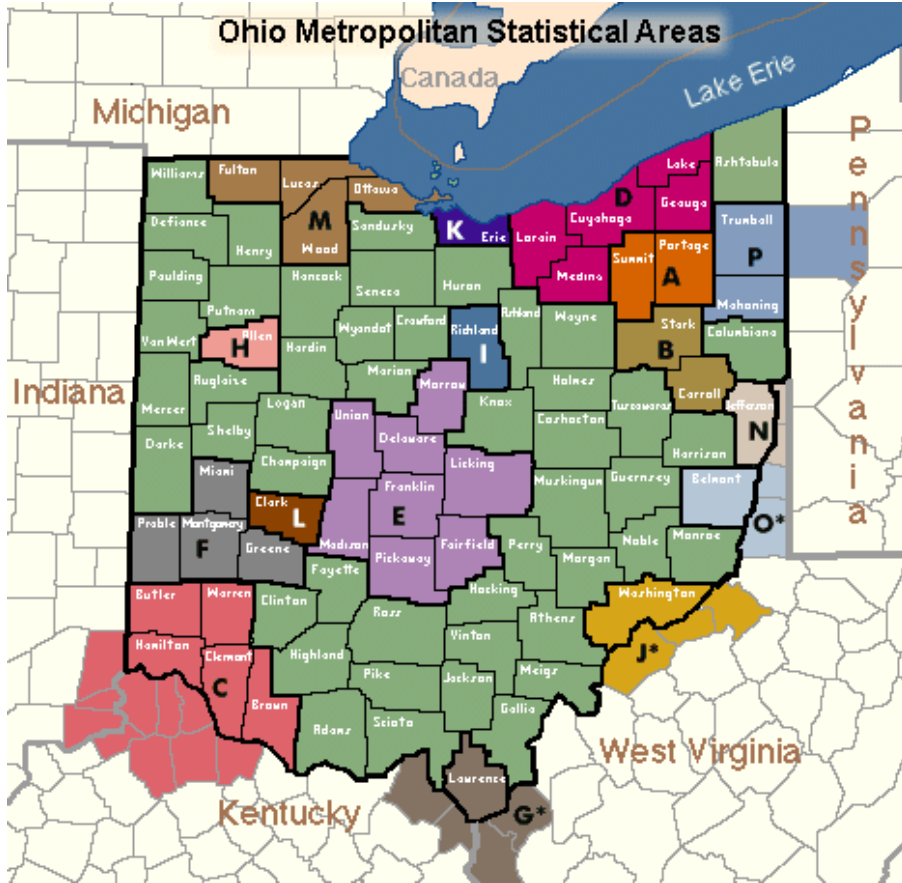

Ohio's Business Principles for Workforce Development

- Partner with the workforce and economic development communities.
- Develop and deploy new information solution tools and systems for the workforce and economic development communities.
- Provide products and services that are customer and demand driven.
- Be known as an important and reliable source for information solutions that support workforce development goals and outcomes.

Overview

- Substate regions in Ohio
- Workforce Analysis Reports: substate statistics at work for WIAs
- Resources and value added for substate statistics
- Issues in presenting substate data
- Additional resources

Ohio's Metropolitan Statistical Areas (MSAs)

Ohio's Economic Development Regions (EDRs)

Ohio's Workforce Investment Areas

Substate Data at Work: Workforce Analysis

- In early 2007, LMI published Workforce Analysis reports for Ohio's 19 Workforce Investment Areas, including all 12 One-Stop systems in WIA 7
- Custom-focused our statistics for each area
- Examples from the *Employment & Training Connection*—Ashland, Holmes and Wayne Counties

Industry Employment (QCEW)

Employment Prospects by Industry Sector

| 2005 Employment | New Jobs: 2000-2005 |
|---|--|
| Manufacturing | Education and Health Services |
| Education and Health Services | Construction |
| Local Government | Local Government |
| Retail Trade | Wholesale Trade |
| Accommodation and Food Services | Retail Trade |
| Construction | Finance and Insurance |
| Wholesale Trade | Accommodation and Food Services |
| Other Services, except Public Administration | Arts, Entertainment and Recreation |
| Professional, Scientific and Technical Services | Real Estate and Rental and Leasing |
| Finance and Insurance | Federal Government |
| State Government | Other Services, except Public Administration |
| Information | State Government |
| Agriculture, Forestry, Fishing and Hunting | Information |
| Mining | Manufacturing |
| Arts, Entertainment and Recreation | <i>Agriculture, Forestry, Fishing and Hunting</i> |
| Real Estate and Rental and Leasing | <i>Mining</i> |
| Federal Government | <i>Professional, Scientific and Technical Services</i> |

Average Weekly Earnings (QCEW)

| Industry Sector | 2000 Employment | 2005 Employment | Net Change | Percent Change | Average Weekly Earnings |
|--|--------------------|--------------------|---------------|-------------------|-------------------------------|
| Mining | NA | 583 | NA | NA | \$843 |
| Federal Government | 506 | 406 | -100 | -19.8% | \$801 |
| Finance and Insurance | 1,863 | 1,923 | 60 | 3.2% | \$748 |
| Manufacturing | 28,560 | 24,207 | -4,353 | -15.2% | \$743 |
| Professional, Scientific and Technical Services | NA | 1,983 | NA | NA | \$730 |
| State Government | 1,889 | 1,728 | -161 | -8.5% | \$719 |
| Wholesale Trade | 2,496 | 2,869 | 373 | 14.9% | \$717 |
| Construction | 4,004 | 5,156 | 1,152 | 28.8% | \$665 |
| Local Government | 8,956 | 9,572 | 616 | 6.9% | \$610 |
| Information | 1,043 | 765 | -278 | -26.7% | \$587 |
| Education and Health Services | 8,164 | 9,883 | 1,719 | 21.1% | \$550 |
| Agriculture, Forestry, Fishing and Hunting | NA | 673 | NA | NA | \$455 |
| Real Estate and Rental and Leasing | 508 | 541 | 33 | 6.5% | \$444 |
| Retail Trade | 9,106 | 9,276 | 170 | 1.9% | \$379 |
| Other Services, except Public Administration | 2,400 | 2,262 | -138 | -5.8% | \$352 |
| Arts, Entertainment and Recreation | 520 | 559 | 39 | 7.5% | \$226 |
| Accommodation and Food Services | 5,851 | 5,890 | 39 | 0.7% | \$190 |

Types of Data

- Population and Demographics
- Unemployment
- Industry employment
 - Current Employment Statistics (CES)
 - Quarterly Census of Employment & Wages (QCEW)
- Occupational employment
 - Occupational Employment Statistics (OES)
 - Estimate Delivery System (EDS)
- Economic statistics
 - Per capita income
 - Building permits
 - Poverty rates

Quarterly Census of Employment & Wages (QCEW)

- Classified employment published by county
- If all counties for a region are publishable, statistics are mostly summative
 - Ex.: Manufacturing employment in Ashtabula Co. + Mahoning Co. + Trumbull Co. equals manufacturing employment in EDR 12.
- If one county's data is suppressed, the whole region may not be publishable.
 - Smaller regions (2 – 5 counties) lower this likelihood
 - Also beware secondary suppression
- Danger in redefined MSAs
 - Definitions change; historical data does not

Estimates Delivery System (EDS)

- Method of converting MSA-based OES figures to EDRs or counties.
- Uses MSA figures published by the BLS as a jumping-off point for estimates
- Developed by Tom Price the North Carolina Employment Security Commission
- Data may need to be cleaned (checked for suppression, outliers, etc.) before publication

Other Data Types

- Population
 - From the Census Bureau
 - The American Community Survey offers additional information on demographics, income, race, commuting patterns and education
- Income
 - From the BEA
 - Total personal income and population may be summed across counties to find per capita income
- Regional Input-Output Modeling System (RIMS II)
 - Sophisticated tool for purchase from BEA showing multiplier effects of industries
 - Useful for impact analyses or benefit-cost studies

Publishing your New Figures

- Many statistics are based on simple formulae that are easy to replicate
- One piece of suppressed data may block a whole region
- Reconstruction: balance the need for reliable time-series data with the need for historical records
- Be mindful of data revisions (may open up suppressed regions)
- Substate areas available from Ohio Workforce Informer

Employment & Wages by Industry (QCEW)

The Shift and/or Control keys can be used to select multiple items. Selection Page 1 of 3

Select area types and areas for which you would like to view the data

| 1 Select Area Types | 2 Select Areas |
|---|--|
| <input type="checkbox"/> Ohio | <input type="checkbox"/> Select Consecutive 900/Clear All |
| <input type="checkbox"/> County | <input checked="" type="checkbox"/> WIA 7A - Northwest Ohio One-Stop |
| <input type="checkbox"/> Economic Development Region | <input checked="" type="checkbox"/> WIA 7B - ACCENT One-Stop |
| <input checked="" type="checkbox"/> Workforce Area | <input type="checkbox"/> WIA 7C - Job Solutions One-Stop |
| <input type="checkbox"/> Metropolitan Area - 2000 Definitions | <input type="checkbox"/> WIA 7D - Northcoast One-Stop |
| | <input type="checkbox"/> WIA 7E - Job Network One-Stop |

How Sub-State Data can Work

- Present detailed analyses of local areas around the state
 - WIA boards
 - Substate regions for ETA deliverables
 - Special geographies (e.g., Appalachia)
 - WIRED initiatives
 - Other state research projects
- Encourage analysts to think beyond political boundaries, even outside the state
- Clear presentation is key to impacting decisions
